

## **Corporate Finance House breaks ground of West Wharf in Business Bay**

*18 January 2007*

Dubai - Following the launch of West Wharf- one of the few dedicated residential developments in Business Bay- in December last year, today saw the official groundbreaking ceremony and laying of the foundation stone.

Scheduled for completion in December 2008, West Wharf comprises 18 floors offering a range of contemporary loft, townhouse and apartment living including duplexes and penthouses with private swimming pools. The development enjoys breathtaking views of the Dubai Creek and has underground parking along with luxury leisure facilities.

Laying the foundation stone, Fawzi Farah, Chairman of the developers, Corporate Finance House (CFH), said: "This is a truly momentous day for us as we lay the first stone of our first real estate project in Dubai. We would like to thank all our partners and investors for their continuous support. We also thank the management of Dubai Properties and the Government of Dubai for their innovative vision and their impressive cooperation throughout the preparation phases".

Hazel Wong, internationally - renowned architect who designed the acclaimed Emirates Towers in Dubai, has also designed the West Wharf building. Present at the groundbreaking she said: "I am delighted to be part of this groundbreaking event today and am proud to be involved in such a prestigious project. Business Bay is exactly the right location for this property, combining the convenience of setting with the understated luxury and elegance of the development."
